

Project Design Phase-II

Data Flow Diagram & User Stories

Date	03 October 2022
Team ID	PNT2022TMID43309
Project Name	Project - AI-powered Nutrition Analyzer for Fitness Enthusiasts
Maximum Marks	4 Marks

Data Flow Diagrams:

A Data Flow Diagram (DFD) is a traditional visual representation of the information flows within a system. A neat and clear DFD can depict the right amount of the system requirement graphically. It shows how data enters and leaves the system, what changes the information, and where data is stored.

User Stories

Use the below template to list all the user stories for the product.

User Type	Functional Requirement (Epic)	User Story Number	User Story / Task	Acceptance criteria	Priority	Release
Customer (Mobile user)	Registration	USN-1	As a user, I can register for the application by entering my email, password, and confirming my password.	I can access my account / dashboard	High	Sprint-1
		USN-2	As a user, I will receive confirmation email once I have registered for the application	I can receive confirmation email & click confirm	High	Sprint-1
		USN-3	As a user, I can register for the application through a mobile number.	I can register & access the dashboard with my mobile number .	Medium	Sprint-2
		USN-4	As a user, I can register for the application through OTP.	I can receive confirmation OTP & click confirm.	Medium	Sprint-2
		USN-5	As a user, I can register for the application through my fitbit account.	I can scan the QR code for confirmation.	Low	Sprint-3
	Login	USN-5	As a user, I can log into the application by entering mobile number & password	My details are validated by receiving an OTP.	High	Sprint-1
		USN-6	As a user, I can log into the application using my Google+.	My gmail & password is verified.	Medium	Sprint-2
		USN-7	As a user, I can log into the application using my fitbit account	My fitbit account is verified with the device & logged in.	Low	Sprint-3
	Dashboard	USN-8	As a user, I enter my primary usage requirements.	Display my personalised contents on the dashboard	High	Sprint-1
	Food Identifier	USN-9	As a user, I capture an image using my files or camera.	Identifies the given image from the model dataset & provides necessary information.	High	Sprint-1
	Diet Plan(Beginner level)	USN-10	As a user, I check my diet plan formulated by my personalized AI nutritionist.	I can check for my likes & dislikes to follow on a daily basis.	Medium	Sprint-2
	Diet Plan(Advanced level)	USN-11	As a user, I can formulate my diet plan by myself according to the given essential nutrients.	The AI model checks whether my diet meets the required nutrient levels.	Low	Sprint-3

User Type	Functional Requirement (Epic)	User Story Number	User Story / Task	Acceptance criteria	Priority	Release
	Calorie Tracker	USN-12	As a user, I can either enter the food intake manually or either through camera image capturing 5x daily.	My food intake is calculated & analysed on a daily basis.	Medium	Sprint-2
	Workout Plan	USN-13	As a user, I can choose my workout type as with/without equipment & track them on a daily or weekly basis.	My type of workout is analysed by the model & the duration is used to calculate the calorie / fat burnt analysis.	Medium	Sprint-2
Customer (Web user)	Registration	USN-14	As a user, I can register for the application by entering my email, password, and confirming my password.	I can access my account / dashboard	High	Sprint-1
		USN-15	As a user, I will receive confirmation email once I have registered for the application	I can receive confirmation email & click confirm	High	Sprint-1
		USN-16	As a user, I can register for the application through a mobile number.	I can receive an OTP to confirm my profile.	Medium	Sprint-1
		USN-17	As a user, I can register for the application through OTP.	My OTP is validated and account is registered.	Medium	Sprint-1
	Login	USN-18	As a user, I can log into the website using my google account & password.	My credentials are validated and click log in	High	Sprint-1
		USN-19	As a user, I can log into the application using my mobile number & password..	My password is verified & I am logged into the dashboard.	Medium	Sprint-2
	Dashboard	USN-20	As a user, I enter my primary usage requirements.	Display my personalised contents on the dashboard	High	Sprint-1
	Food Identifier	USN-21	As a user, I capture an image using my files or camera.	Identifies the given image from the model dataset & provides necessary information.	High	Sprint-1
	Diet Plan(Beginner level)	USN-22	As a user, I check my diet plan formulated by my personalized AI nutritionist.	I can check for my likes & dislikes to follow on a daily basis.	Medium	Sprint-2
	Diet Plan(Advanced level)	USN-23	As a user, I can formulate my diet plan by myself according to the given essential nutrients.	The AI model checks whether my diet meets the required nutrient levels.	Low	Sprint-3

User Type	Functional Requirement (Epic)	User Story Number	User Story / Task	Acceptance criteria	Priority	Release
	Calorie Tracker	USN-24	As a user, I can either enter the food intake manually or either through camera image capturing 5x daily.	My food intake is calculated & analysed on a daily basis.	Medium	Sprint-2
	Workout Plan	USN-25	As a user, I can choose my workout type as with/without equipment & track them on a daily or weekly basis.	My type of workout is analysed by the model & the duration is used to calculate the calorie / fat burnt analysis.	Medium	Sprint-2
Customer Care Executive	Chatbox	USN-26	As a user, I can approach the chatbot for usage related queries.	I can obtain responses & guidelines from it.	Medium	Sprint-2
		USN-27	As a user, I can view a list of FAQs to get a quick solution without waiting for a reply.	My selected related query can be accessed & reviewed for clarification.	High	Sprint-2
		USN-28	As a user, I can call or mail my customer support link for queries.	My query will be answered by a 24/7 customer support system.	High	Sprint-2
Administrator	Database maintenance	USN-29	As an administrator, I can handle all the user information & image datasets captured by the AI model.	I can ensure data safety & provide various assurity towards user security .	High	Sprint-1
	Customer Service	USN-30	As an administrator, I can answer all the user queries & solve customer issues with the application.	I have to solve a set of problems faced by the user & provide easy access for usability.	Medium	Sprint-1
	Feature Maintenance	USN-31	As an administrator , I can upgrade features & enhance usability of the user.	I need to properly test & train the model according to user dataset.	Medium	Sprint-2
		USN-32	As an administrator, I can debug feature bugs & increase smoothness of the application.	I have to perform various test cases to identify & rectify the problem.	Medium	Sprint-2
